**Description:**

For many years, German wine labels were perceived as being too difficult to read and pronounce. It was difficult for wine drinkers to really understand what was in their glass! Realizing something needed to be done, German wine laws were changed giving way to a new set of wines vintners could produce. With more flexibility to craft unique single varietal wines or blend different styles, this change paved the road for the creativity of a younger generation of winemakers inheriting family vineyards. Romantic Riesling, first launched in 2004 is a genuine example of these fine traditions and rich German quality. In its 9<sup>th</sup> release, Romantic has had the good fortune of skilled winemakers and fertile soils of the Mosel.

Made of 100% Riesling grapes from the Mosel region, Romantic offers an abundant round nose of crisp, granny smith apples while the medium-body proves to be a fantastic complement to fish, chicken or seafood dishes.

Restauranters have embraced Romantic Riesling as a great buy-by-the-glass, as its signature style and upfront fruit flavors are straight forward and quite the crowd pleaser. A perfect wine to enjoy for summer barbecues, brisk evenings with friends or around the dinner table. You'll want to buy it by the case, as the price to quality ratio is unmatched!
